09126313690

janart0117@gmail.com

EDUCATION

Associate in Computer Technology

STI College Ormoc

2013 – 2015

High School

New Ormoc City National High
School

2009 – 2013

TECHNICAL SKILLS

- Data Analysis: Advanced MS Excel, gathering and analyzing complex datasets.
- Software: MS Office Suite, Basic Photoshop.
- Systems: Inventory tracking system design and implementation.
- Automation: Python (App Development for task automation).

LANGUAGE

- English
- Cebuano
- Tagalog

PROFILE

Adaptive Operations Consultant with 5 years of experience specializing in Billing and Inventory Control. I bridge the gap between administrative precision and technical innovation by gathering critical client data—such as meeting minutes and capital improvements—and building custom Python applications to automate manual workflows. Expert in data analysis, financial processing, and system optimization.

PROFESSIONAL EXPERIENCE

Operations & Automation Consultant

2021 – Present

- Facilitate client information gathering, specifically focusing on corporate minutes and capital improvement documentation.
- Develop Python-based automation tools to reduce manual entry and improve data accuracy.
- Consult on process improvements to streamline document workflows and reporting.

Billing & Inventory Control Specialist

2016 – 2021

- Financial Management: Handled high-volume billing and the processing of sensitive financial information.
- System Innovation: Designed and implemented customized inventory tracking systems to optimize control procedures.
- Strategic Reporting: Analyzed raw material levels and supply chains to determine shortages and prevent operational delays.
- Data Integrity: Created comprehensive reports for stock levels, inventory operations, and adjustments.
